### 175 Recommended Care & Cleaning<sup>RS</sup>

Clean the surface with a damp cloth or sponge and a mild soap or detergent. Rinse thoroughly with warm water and wipe dry.

Difficult stains such as coffee or tea can be removed using a mild household cleaner/detergent and a soft bristled brush, repeating as necessary.

If a stain persists, use a paste of baking soda and water and apply with a soft bristled brush. Light scrubbing for 10 to 20 strokes should remove most stains. Although baking soda is a low abrasive, excessive scrubbing or exerting too much force could damage the surface.

Stubborn stains that resist any of the above cleaning methods may require the use of undiluted household bleach or nail polish remover. Apply to the stain and let stand no longer than two minutes. Rinse thoroughly with warm water and wipe dry. May repeat if stain appears to be going away and the laminate color has not been affected.

After cleaning rinse surfaces using a water-dampened cloth, and dry thoroughly as some cleaning agents are corrosive by nature, and if not rinsed their residue can cause permanent damage

#### Recommended Household Cleaners<sup>RS</sup>

Windex® • Glass Plus® • Fantastik® • Mr. Clean® • Formula 409® • Isopropyl Alcohol

#### Warning

Prolonged exposure to bleach will cause discoloration. Always rinse surfaces after cleaning! Failure to rinse after cleaning can cause damage; even if a small amount of cleaning solution remains on the surface.

### 179-177 Recommended Care & Cleaning<sup>RS</sup>

**ALWAYS** rinse overbed table with a water-dampened cloth to remove any cleaning agent residue, and dry thoroughly

Recommend using a mild cleaning agent or detergent when cleaning overbed table. Some cleaning agents are corrosive by nature, and if not rinsed their residue can cause permanent damage

If other hospital-grade cleaning agents are used, follow the instructions provided by the manufacturer

After cleaning rinse surfaces using a water-dampened cloth, and dry thoroughly as some cleaning agents are corrosive by nature, and if not rinsed their residue can cause permanent damage

#### A Few Notes of Caution

- **Acidic or abrasive cleaners** can damage laminate surfaces; do not use them.
- **Hair, textile and food dyes** can cause permanent stains. If spilled, wipe it up immediately with dish-washing detergent or an all-purpose cleaner.
- **Steel wool and other abrasive pads** will damage the laminate face. Do not use them for cleaning.
- **Drain and Toilet bowl cleaners** contain harsh chemicals that can cause permanent damage. If spilled, wipe up immediately, wash surface with soapy water and rinse several times.

#### Color Variations

Swatches are digital reproductions. Perceived texture and coloring may vary on finished product. Monitor and printer settings will affect appearance of color.
